

## Colorado Alternate Assessment Program (CoAlt) 2022 State Achievement Results English Language Arts and Mathematics

### Interpretation Considerations

**COVID-19**

- Students may have experienced ongoing reduced, disrupted and/or adjusted learning opportunities in school year 2021-2022
- Consider the pandemic's continued impact on learning opportunities for some students

**Participation**

- Interpretation challenges increase as participation rates and/or representativeness\* decrease
- Some student groups may have tested at a higher rate than other groups
- Data will not support all cross-state comparisons and historical uses when participation rates are low and/or representativeness\* is limited
- Cross-year comparisons should consider differences in participation rates and representativeness\* across years

\*Representativeness: how well the demographics of the tested student population mirrored the demographics of the enrolled student population.

## Colorado Alternate Assessment Program (CoAlt) 2022 State Achievement Results English Language Arts and Mathematics

### Interpretation Considerations

**COVID-19**

- Students may have experienced ongoing reduced, disrupted and/or adjusted learning opportunities in school year 2021-2022
- Consider the pandemic's continued impact on learning opportunities for some students

**Participation**

- Interpretation challenges increase as participation rates and/or representativeness\* decrease
- Some student groups may have tested at a higher rate than other groups
- Data will not support all cross-state comparisons and historical uses when participation rates are low and/or representativeness\* is limited
- Cross-year comparisons should consider differences in participation rates and representativeness\* across years

\*Representativeness: how well the demographics of the tested student population mirrored the demographics of the enrolled student population.

Note: Free and Reduced Lunch data collection and reporting were less precise for spring 2022 assessments than historically. These data should be used with caution.

## Colorado Alternate Assessment Program (CoAlt) 2022 State Achievement Results English Language Arts and Mathematics

### Interpretation Considerations

**COVID-19**

- Students may have experienced ongoing reduced, disrupted and/or adjusted learning opportunities in school year 2021-2022
- Consider the pandemic's continued impact on learning opportunities for some students

**Participation**

- Interpretation challenges increase as participation rates and/or representativeness\* decrease
- Some student groups may have tested at a higher rate than other groups
- Data will not support all cross-state comparisons and historical uses when participation rates are low and/or representativeness\* is limited
- Cross-year comparisons should consider differences in participation rates and representativeness\* across years

\*Representativeness: how well the demographics of the tested student population mirrored the demographics of the enrolled student population.
