

2024-2025 Alternate Education Campus: Actual Measures for 2025 AEC SPF

Purpose:

To collect measures and aggregated optional data to include in the AEC SPF for Alternative Education Campuses (AECs). These optional measures are not mandatory, but are supplemental and add greater context to the state-required measures on the AEC SPF. Please note that only optional measures submitted through this process will be considered for inclusion in the Alternative Education Campus School Performance Frameworks (AEC SPFs).

Dependencies:

School code must be associated with an Alternate Education Campus

Record Expectation:

The LEA should submit 1 record per metric per school each year.

File Notes:

- New changes from 2023-2024 are emphasized with yellow shading.
- *Indicates primary key
- **Zero fill all non-applicable data fields**
- A header row is required for .csv and .xlsx files

[Contact Bee Sanders \(sanders_b@cde.state.co.us\) with questions.](mailto:sanders_b@cde.state.co.us)

Data Field List:

Name of Field	Field Length	Text Start Position	Text End Position	CSV Order	Excel Column	Example(s)	Remarks
*District Code	4	1	4	1	A2	0000	
*School Code	4	5	8	2	B2	1234	
*AEC Indicator	1	9	9	3	C2	2	Code for the indicator
AEC Assessment	3	10	12	4	D2	121	Code for the Assessment
AEC Assessment Category	4	13	16	5	E2	1060	Code for the Assessment Category
AEC Assessment Category Metric Code*	1	17	17	6	F2	3	Metric used for the indicator, assessment, and assessment category combination
AEC Students Meeting Measure	6	18	23	7	G2	15	Note: not always relevant (depends on metric). Blanks allowed.
*AEC Total Students for Measure	6	24	29	8	H2	40	
*AEC Student Rate for Measure	4	30	33	9	I2	37.5	

Data Field Descriptions:

School District/BOCES Code

A unique code assigned to a district by CDE. Refer to School District/BOCES Code table. School District/BOCES Code Table.

School Code

A unique code assigned by CDE to a school building. Refer to "School Building Codes" posted at on the [Data Pipeline Frequently Requested Codes and Resources Page](#) for a listing of school codes.

AEC Indicator

The indicator associated with a given optional measure. All optional measures submitted must fall into one of the AEC Indicators listed below. See table below for AEC Indicator codes associated with each valid subindicator/category/metric combination.

AEC Assessment

The name of the assessment or subindicator being submitted for consideration as an optional measure for the AEC SPF. Choose from the list below of previously approved optional measures. Choosing one of the previously approved measures below does not guarantee approval of your submitted measure. CDE reserves the right to reach out with clarifying questions regarding your submitted data and collection methods. See table below for previously approved AEC Subindicator codes associated with each valid indicator/subindicator/category/metric combination.

AEC Assessment Category

The content area or specific area of interest of the assessment or subindicator being submitted for consideration as an optional measure for the AEC SPF. Choose from the list below of previously approved optional measures. Choosing one of the previously approved subindicators below does not guarantee approval of your submitted measure. CDE reserves the right to reach out with clarifying questions regarding your submitted data and collection methods. See table below for previously approved AEC Subindicator Category codes associated with each valid indicator/subindicator/category/metric combination.

AEC Assessment Category Metric Code

The metric type for your optional measure. See table below for previously approved AEC Subindicator Category codes associated with each valid subindicator/category/metric combination.

AEC Students Meeting Measure

Count of students meeting the selected metric. NOTE: if your selected metric type is Percentile Rank, MGP, or Mean Score, you may leave this field blank.

AEC Total Students for Measure

Count of the total number of students contributing to the metric. This field must be completed. The minimum N size for optional measures submitted to the Academic Achievement, Student Engagement, and Post-Secondary and Workforce Readiness indicators is 16. The minimum N size for optional measures submitted to the Academic Growth indicator is 20.

AEC Student Rate for Measure

Value representing the number of students meeting the selected metric. Enter data as follows by metric type:

- Percentages should be entered as decimals to the hundredth place out of 1. Example: .53
- Percentile Ranks should be entered as integers to the tenth decimal place. Example: 47.5
- Growth scores should be entered as appropriate. This may be like a percentage, or like a percentile rank, depending on the assessment.
- MGPs should be entered as integers to the tenth decimal place. Example: 47.5
- Mean scores should be entered as appropriate. This may be like a percentage, or like a percentile rank, depending on the assessment.

Note: any data entered with more than two decimal places will be rounded by our data warehouse and appear in a two decimal place format if accepted for inclusion in the Alternative Education Campus (AEC) School Performance Framework (SPF).

Reference Table:

Valid combinations for Indicator/Subindicator/Category/Metric with Codes

Use this table to determine the codes for the elements of a given approved optional measure for the AEC SPF. Only codes submitted with these valid indicator/subindicator/category/metric combinations are usable in Data Pipeline. The table below is sorted first by AEC SPF indicator, then alphabetically by subindicator and category within each indicator. This table is also available as a spreadsheet on the [AEC Collections website](#).
