

## Gender Field Update 2023-2024

### Overview

The Gender category field will be updated for ALL Data Collections starting in the 2023-2024 year. This change is due to requests from Local Education Agencies (LEAs) to allow for an additional code to report the gender for students and staff. This is to align with birth certificates issued in Colorado as well as driver's licenses, which both allow for nonbinary as well as male and female (per C.R.S. [25-2-113.8](#)). An additional code in the data pipeline collections will assist LEAs while reporting their students and staff gender; however, the code would not be required to be used for LEAs.

### Updated Field

**Gender** – An individual's sex.

Code	Description
01	<b>Female</b> – identifies as female (including a transgender student who identifies exclusively as female).
02	<b>Male</b> – identifies as male (including a transgender student who identifies exclusively as male).
03	<b>Nonbinary</b> - does not identify exclusively as male or female. Nonbinary does not refer to a transgender student who identifies exclusively as either male or female.

### Timeline

The gender field will be updated and allow for code '03' in Data Pipeline starting for the 2023-2024 collections.
