

# UIP Online System: District Admin Guide

This document is intended for use by district-level staff coordinating improvement planning efforts or responsible for Unified Improvement Plan (UIP) submissions. This guide includes step-by-step instructions for many aspects of the UIP Online System, including accessing schools’ UIPs; editing and posting school and district UIPs; and accessing UIP feedback. This guide supplements the [Online System User Guide](#), which contains information on how to log in to the UIP Online System and complete the UIP.

As of the 2025-2026 UIP cycle, starting April 2025, all UIPs will be completed on the streamlined UIP template. The Colorado Department of Education has rolled out a streamlined Unified Improvement Plan (UIP) Template. The changes stem from consideration of feedback over time and two years of piloting from educators, administrators, and stakeholders.

- All school-level users will be assigned to UIP2~School Admin on Identity Management. District LAMs and users do not need to take any action for this change. School-level users should continue to sign into the UIP Online System as normal.
- “Continue Previous Plan” will be replacing the “Copy From Last Year” functionality that was previously available on the traditional UIP template. More details about the new functionality can be found in the guide.
- District-level users will also only be able to access the streamlined UIP template using the “Access UIP” button found on the UIP record. More details about the changes can be found in the guide.

## Home Tab

Upon logging into the UIP Online System, district users will land on the Home tab. The Home tab contains two list views (district and school) for users to see details about all UIPs. Use the Search box in each list view to find a specific UIP.

The screenshot shows the Home Tab interface. At the top, there's a navigation bar with the Colorado Department of Education logo and a search bar. Below the navigation bar, the 'Home' tab is selected. The main content area displays two list views: 'District List View' and 'School List View'. The 'District List View' shows a table with columns for UIP Name, District Name, Organizational Code, Last Modified Date, UIP Status, Biennial Flex, Biennial Flex Instructions, Combined Plan, Combined Plan E, C, Course Taking In, R, and READ Act Direct. The 'School List View' shows a table with columns for UIP Name, District Name, Organizational Code, UIP Status, School Name, School Code, Plan Type, Enterin, Biennial, Last Modified Date, and Last Modified By. Below the list views, there's a 'Dashboard' section titled '2025-26 UIP Dashboard' with three widgets: 'UIP Status Overview' (showing a record count of 3), 'UIPs Ready for District Review' (showing 0), and 'UIPs Reviewed & Submitted' (showing 0).

The Home tab also contains a UIP Dashboard that districts can use to monitor the status of all of their schools' UIPs. Click the "View Report" button in each widget of the dashboard to view and download a report of the information being displayed. To export a report from the "View Report" screen, click on the arrow in the upper right corner and select "Export."

The screenshot shows the '2025-26 UIP Dashboard' section. It contains three widgets: 'UIP Status Overview' (showing a record count of 3), 'UIPs Ready for District Review' (showing 0), and 'UIPs Reviewed & Submitted' (showing 0). Below these widgets, there's a 'Biennial Flex Eligibility' table and an 'Exercising Biennial Flex' widget. The 'Biennial Flex Eligibility' table has columns for Organization Code, School Code, UIP Name, Biennial Flex, and Biennial Flex Instructions. The 'Exercising Biennial Flex' widget shows 0. A red box highlights the 'View Report' button in the 'UIP Status Overview' widget.

## How to Access and Download UIPs

From the Home tab, users can quickly access a UIP by clicking the UIP Name in the District or School List Views. The user will navigate to the UIP's Details page.

The screenshot shows the Colorado Department of Education's UIP Elements Dashboard. The 'UIP' dropdown menu is highlighted in red. Below, the 'District List View' and 'School List View' tables are shown. In the 'School List View', the 'CDE Lark Bunting Middle School UIP 2025-26' is highlighted in red.

Once on the UIP Details page, the user must select the **"Access UIP"** button to access the district or school UIP record. The UIP will open in a new window. Once in the UIP, the user can download the UIP from either the Homepage tab or the Visualize tab.

The screenshot shows the CDE Lark Bunting Middle School UIP 2025-26 Details page. The 'Access UIP' button is highlighted in red. The page shows related information on the left and an activity section on the right.

CDE Lark Bunting Middle School is a 6-8 somewhat diverse and traditional middle school. CDE Lark Bunting is also a program school with highly gifted students (across multiple domains) from across the valley. Our focus is a targeted approach using Professional Learning communities as a driver for academic growth by looking at standards-based student work. Additionally, CDE Lark Bunting is using more of a community-based approach to support school belonging, service learning, engagement, and fieldwork opportunities.

## UIP Tab

The UIP Tab is another way to access both current and previous years' UIPs. The “Recently Viewed” list shows by default. The user can use the down arrow next to the title of the list to change which list is displayed. Use the “Pin” feature to set a different list as the default for this tab. Each list view will include all UIPs in that category. To log into the UIP, click the title under the UIP Name column.

  - Schools eligible for January submission
  - \*District List View- Current School Year District UIP
  - \*School List View- Current School Year School UIPs
- \*These list views can also be found on the Home tab

## Submitting a UIP for Public Posting

There are two ways for District Admins to submit UIPs for public posting on [Schoolview](#). For information on submitting combined plans in the UIP Online System, refer to the [Guidance for Combined Plans](#).

### Option 1: Submit up to 10 Plans from UIP Tab List View

Once schools have completed the UIP and clicked “Submit for District Review,” the schools will appear in the “Schools Ready for District Approval” list of the UIP tab. The district can review the UIP and then submit up to 10 UIPs at a time to the CDE website by:

1. Checking the box next to the school name and
2. Clicking the “Submit for Public Posting” button at the top of the screen.
3. Confirm submitting the UIP for public posting.

After clicking “Confirm,” the UIP will be submitted for public posting on Schoolview. On the UIP detail page, the UIP status will change to “Submitted for Posting.” Do not manually change the UIP Status on this page or the plan will not actually post to Schoolview.

District UIPs will appear in the “District List View” view dropdown and can be submitted the same way.

The first screenshot shows the 'UIP' tab selected in the navigation menu. Below the 'Schools Ready for District Approval' header, a table lists UIPs. The first row is for 'CDE Stegosaurus Primary School UIP 2025-26' with a status of 'Ready for District Review'. A red box highlights the 'UIP' tab in the navigation menu.

The second screenshot shows the same table with the checkbox next to the first row selected. A red box highlights the 'Ready For School View' button in the top right corner of the table area.

The third screenshot shows a confirmation dialog box with the text: 'Please confirm that you want to submit the selected UIPs for School View to create the Final Version UIP PDF'. A red box highlights the 'Confirm' button.

## Option 2: Submit Plans from the UIP Details page

An individual school or district UIP can also be submitted for public posting on Schoolview from the UIP detail page. If the UIP has been reviewed by the district and is ready to be publicly posted, the district admin can navigate to the UIP Details page following the directions in the “Access and Download UIPs” section of this guide.

Once on the UIP’s Details page, click the “Submit for Public Posting” button in the top right-hand corner of the screen. The user will be asked to confirm that you wish to submit the UIP for public posting. After clicking “Confirm,” the UIP will be submitted for public posting on Schoolview. On the UIP detail page, the UIP status will change to “Submitted for Posting.” Do not manually change the UIP Status on this page or the plan will not actually post to Schoolview.

The first screenshot shows the 'UIP Details' page for 'CDE Stegosaurus Primary School UIP 2025-26'. The 'Details' tab is selected, and the 'Submit for Public Posting' button is highlighted in the top right. The table below lists the UIP details:

Related	
UIP Name	CDE Stegosaurus Primary School UIP 2025-26
UIP Status	Ready for District Review
District Name	<a href="#">CDE Test District</a>
Organization Code	8888
School Name	<a href="#">CDE Stegosaurus Primary School</a>

## Reports

Administrative users can use the reports tab to generate Excel files that include data from the district and all schools. To view already generated reports, navigate to “All Folders,” “Reports for Districts,” then select the name of the report, such as “PPC RC and MIS.” All reports will generate the specified UIP elements for this year.

## State Accountability Secure Data Explorer Tool

If the user has been assigned by the Local Access Manager (LAM) to access the Secure Data Explorer tool using the “Tableau-XXXX~ACCT\_CONTACT” role, the tool will be available as a tab on the top navigation bar. As with the public version, this tool provides access to a variety of graphs and data tables showing student performance outcomes. This secure version of the tool does not apply minimum n-count conditions to the results associated with your district. However, CDE cautions against generalizing about student performance based on metrics with small n-sizes, especially those that fall below the publication threshold. The secure tool is not public, and LAMs should only authorize access to staff eligible to view student data. If the user has not been assigned by the LAM to the Accountability Contact Tableau role, this tab will prompt the user for a login and will not work.

The data included in this report is not publicly available as the report goes to an "n of 1" for your district. This report also is not included in the final UIP and is meant for planning purposes only. For questions, contact [accountability@cde.state](mailto:accountability@cde.state).

Home Page | CMAS English Language Arts & Math | Colorado PSAT/SAT | CMAS Science | WIDA ACCESS for English Learners

### State Accountability Data Explorer - Secure Access

Home Page | OVERVIEW | REPORTING RULES

#### PURPOSE AND AUDIENCE

This is a secure access version of the State Accountability Data Explorer tool maintained by CDE's Accountability and Data Analysis Unit. As with the public version, this tool provides access to a variety of graphs and data tables showing student performance outcomes. The outcome measures encompass the sub-indicator metrics that are used to evaluate schools and districts on the state performance frameworks, as well as a broader set of calculations that are not used for the performance frameworks. This information may be used to support improvement planning efforts or to facilitate other types of evaluation and analysis.

This secure version of the Data Explorer tool does not apply minimum n-count conditions to the results associated with your district. However, CDE cautions against making generalizations about student performance based on metrics with small n-sizes, especially those that fall below the publication threshold.

#### ACCOUNTABILITY OUTCOME MEASURES

**Academic Achievement** measures include n-counts and mean scale scores based on results from the Colorado Measures of Academic Success (CMAS) and Colorado PSAT/SAT assessments. Calculations of standard deviation are also available.

**Academic Growth** measures include n-counts and median growth percentiles from the CMAS and PSAT/SAT assessments, and for the WIDA ACCESS for English Learners assessment. For the WIDA ACCESS data set, on-track growth metrics are also available. CDE anticipates that on-track metrics for CMAS assessments will be available beginning with the 2019 data set.

**Test Participation** measures include numerators, denominators, and percentages for two different sets of participation rate calculations. The first set, labeled as Total Participation, treats students who were excused from testing by their parents as non-participants. They are counted in the Total Denominator but not in the Total Numerator, so will reduce the Total Participation Rate. The second set, labeled as Accountability Distribution, treats students who were absent from testing as non-participants. They are not counted in the Accountability Distribution.

Admins can use the UIP Elements Dashboard to view all requirements for school UIPs, as well as reports of all UIP elements in the current year's district and school UIPs. Data will only be populated in the element widgets as the district and school UIPs are completed or copied from last year. Click the "View Report" button in each widget of the dashboard to view and download a report of the information being displayed. To export a report from the "View Report" screen, click on the arrow in the upper right corner and select "Export."

---

8

## Accessing UIP Feedback

There are two ways for Admins to view UIP feedback. \*Note that only plans from schools and districts that are on the clock, on watch, or identified for Comprehensive Support under ESSA receive feedback from CDE.

### Option 1: Feedback Dashboard (For accessing multiple schools' feedback at once)

The School Improvement and Planning team has created a dashboard within the UIP Online System for district level users to view UIP feedback. This feature will be most useful for districts with multiple schools receiving feedback. To access a district summary of feedback in the UIP Online system, select the "Feedback on UIPs" tab in the navigation bar. The dashboard provides summary information; "View Report" can be selected at the bottom of any component to view, export, or print more detailed feedback reports. To export a report from the "View Report" screen, click on the arrow in the upper right corner and select "Export."

District staff responsible for ESEA programs can connect with online UIP district level administrators to access feedback for Comprehensive Support (CS) identified schools, as program feedback is consolidated in one feedback form. Feedback on CS requirements is available through the report available on the dashboard. If you need support identifying staff with those permissions in your district, please contact [uiphelp@cde.state.co.us](mailto:uiphelp@cde.state.co.us). Specifically, the report "Feedback on CS Requirements" within the dashboard may be most useful. For additional context, the report "UIP Feedback: by UIP Section" may provide a broader understanding of overall feedback for the plan.

The screenshot shows the 'Feedback on UIPs' dashboard. At the top, there's a navigation bar with 'Feedback on UIPs' highlighted. The dashboard title is 'Dashboard: UIP Review Feedback for District Users'. Below the title, there's a section for 'Number of UIPs Reviewed' with a donut chart showing a count of 2. To the right, there's a table titled 'UIP Feedback: Overall Summary Feedback' with the following data:

UIP: District Name	UIP: School Name	CDE Feedback: CDE Feedback Name	UIP: UIP Name	Feedback Summary
CDE Test District	CDE Lark Bunting Middle School	CDE Lark Bunting Middle School W2024-25	CDE Lark Bunting Middle School UIP 2024-25	The following Requirements Check review focuses on the individual requirements described in the UIP Quality Criteria. Feedback is given on criteria where the plan is not yet meeting expectations and may be prioritized to provide an actionable list of
CDE Test District	CDE Lark Bunting Middle School	DUP CDE Lark Bunting Middle School W2024-25	CDE Lark Bunting Middle School UIP 2025-26	The following Requirements Check review focuses on the individual requirements described in the UIP Quality Criteria. Feedback is given on criteria where the plan is not yet meeting expectations and may be prioritized to provide an actionable list of

At the bottom of the table, there's a link 'View Report (Feedback Summary)' which is highlighted with a red box.

## Option 2: Feedback within the individual UIPs (For accessing a specific schools' feedback)

Navigate to the UIP Details page following the directions in the "Access and Download UIPs" section of this guide. Within the UIP, select the "Feedback" tab, note that only plans from schools and districts that are on the clock, on watch, or identified for Comprehensive Support under ESSA receive feedback from CDE. The feedback can be downloaded into a PDF by right-clicking on the page and selecting "Print". To access previous year feedback, district users will need to go to the previous year's plan to access the feedback through the Collaboration tab. School users do not have the ability to access previous year plans with associated feedback.

The screenshot displays the CDE Lark Bunting Middle School UIP 2025-26 Feedback page. The page is divided into several sections:

- Header:** Includes the Colorado Department of Education logo, a search bar, and navigation links like Home, Reports, Chatter, Data Explorer, and UIP.
- UIP Details:** A table showing the UIP Name (CDE Lark Bunting Middle School UIP 2025-26), Status (In Progress), District Name (CDE Test District), Organization Code (8888), School Name (CDE Lark Bunting Middle School), School Code (1236), Last Modified By (Stacey Battaglia, 4/24/2025 5:22 AM), Record Type (School UIP 2025), UIP Annual CDE Plan (2025 School Template), and EMH Code (M).
- Activity:** A section showing filters (All time, All activities, All types) and a list of activities. The 'Upcoming & Overdue' section indicates no activities to show.
- Feedback Tab:** The selected tab, showing 'Identifications and Reason for Review' with a 'Pending' status. It also includes a 'Resources' section with links to 'General Resources' and 'UIP Quality Criteria & Requirements'.
- About this Feedback:** A section explaining the feedback process, stating that feedback is provided based on the UIP Quality Criteria. It notes that the 'Summary Feedback' box includes feedback on requirements applicable to all schools and/or districts, and that the 'Program Specific Feedback' box may be empty for Comprehensive Support Identification.
